

Your Patients Understand It. Your Patients *Accept* It.

THE PROBLEM

54% of treatment plans never get scheduled

Average practice loses \$200,000-\$300,000/year from unaccepted treatments.

43% of patients who leave without scheduling never come back.

Sources: ADA Health Policy Institute, Dental Economics 2025

WHY PATIENTS SAY NO

? "I don't understand"

Verbal explanations don't stick. Patients can't visualize what's happening inside their mouth.

\$ "It's too expensive"

Without seeing consequences, patients compare cost to nothing — not to what it costs to wait.

... "I'll think about it"

The decision window closes at the door. 43% never call back. The moment is gone.

THE SOLUTION

Visual chairside presentations that turn doubt into decisions.

1 Select procedure

Choose from 10+ procedures on any tablet

2 Patient watches

20-second visual animation in EN or ES

3 AI consequences

Shows cost of waiting + treatment options

78% acceptance with visual tools vs 46% average

64% of patients prefer digital animations over brochures

WHAT MAKES DENTACCEPT DIFFERENT

EN/ES Bilingual EN/ES

60M Spanish speakers in the US. One tap switches everything. No other tool does this natively.

! "What If You Wait"

Shows patients the real timeline and cost of delaying. Converts hesitation into urgency.

0 Zero Friction

No installation. No IT department. No training. Works on the iPad browser you already have.

PHI No Patient Data

Zero PHI stored. No names, no records, no HIPAA headaches. Only aggregate analytics.
